Palmer[®]

be true to your sound

Palmer® began as a small German custom manufacturing company and has since become a renowned international brand for audio engineers and musicians. Since 1980, we have been crafting professional audio tools for use on stage, in broadcast, and in recording studios.

Our diverse product range now includes speaker simulators for tone enthusiasts, innovative pedalboards and power supply systems, studio monitors, monitor controllers, and reliable audio tools like DI boxes, line isolators, splitters, and mergers.

Our dedication to pristine audio signal integrity, accuracy and attention to detail is our hallmark, all while adhering to our motto: **"Be true to your sound."**

YOUR POWER TO
CONNECT

Cables are so much more than just a signal conductor surrounded by PVC. They connect!

We provide you with solutions for finding your cable quickly – such as our clear series system (5 STAR, 4 STAR, 3 STAR) which is applied to all our products – where you are able to see the differences at first sight. Then there's the easy and effective tool (like the Cable Explorer) in our Webshop.

It's up to you to take as much time as you want for finding your product... but with us, it can happen very quickly, no matter whether it's a guitar going into an amplifier, one moving head to the next, or the socket to the power strip. We're able to give you the perfect products and provide **YOUR POWER TO CONNECT!**

DEFENDER®

PROTECT YOUR WORLD!

If you organise events, you know you have a special responsibility for both people and equipment. Cables and hoses are easily damaged and can quickly become trip hazards. Whatever the environment – be it industrial halls, construction sites, trade fairs, or on film and television sets – those responsible within the industry, our public institutions, civilian rescue services, fire brigades and the military must find the most effective way to protect the working environment.

DEFENDER® cable protectors are the German-made solution that feature an innovative, non-slip surface design. They protect cables and hoses at different load levels, including protection from – and providing accessibility to – heavy goods vehicles. Our highly robust cable protection systems are made of particularly hard-wearing, recyclable TPU (thermoplastic polyurethane). They meet the highest quality standards and are easy to use, thanks to their secure locking lids and self-cleaning hinges. All DEFENDER® products are regularly tested and approved by TÜV-SÜD.

DEFENDER® also offers custom-made products and system solutions to meet unique individual requirements.

defender-protects.com

OUR MISSION

is to amplify emotions
through event technology.

Wherever humans come
together we enable them
to share their passion and
enjoy great moments.

Every day.

DISCOVER MORE:

blog.adamhall.com

LET'S COME TOGETHER

The Adam Hall Group Experience Centre at our headquarters in Neu-Anspach, Germany, which opened in 2018, is a source of inspiration, a think tank and a co-working space all in one – not just for us, but for the entire event industry. This is where we look into the future of events together with you, our partners, customers, and experts and where we can enjoy open dialogues about technology, trends and everything that moves us when it comes to events.

Inside the Experience Centre, future-oriented solutions for music equipment, integrated systems, live events and industrial applications are being developed, tested in our laboratories, and presented to you right here – in our permanent showroom, or even in our sizeable auditorium. Yet it is also home to so much more: besides the prototypes of the future, it also houses countless historical collector's items from several decades of music and event tech history.

Since 2023, you have the opportunity to experience the Adam Hall Group "Surround Experience" exclusively in our German Experience Centre. The synergy of audio and light with the products of our brands LD Systems and Cameo was created in collaboration with the German Film Orchestra Babelsberg and Simple Minds producer and sound engineer Peter Walsh.

By inviting you to visit us we want to share a piece of our passion and creativity with the world. Whether it's at our Experience Centre, a trade show, or any other event, **let's come together!**
