

# SUPREME SOAKER

ANALOG DYNAMIC TUBE AMP HUB

## MEET YOUR NEW ANALOG DYNAMIC TUBE AMP HUB!

The Supreme Soaker allows you to maximise the potential of your tube amp in a way that has never been possible – until now. As a reactive attenuator and load box with a finely tuned analogue speaker simulator built in, the Supreme Soaker allows you to permanently dial in your amp's sweet spot – at any volume – and it will quickly become your go-to device in any musical situation, from playing and recording at home to rehearsing with a band, and even playing live... without sacrificing one iota of your precious tone!

## FEATURES
