

YOUR POWER TO
CONNECT

adamhall.com/ADAMHALLCABLES

**LET'S
CONNECT!**

**THAT'S
WHAT CABLES
USUALLY DO!**

...and they're so much more than just a signal conductor surrounded by PVC. Cables connect! They don't just link devices together: they're the invisible – yet also indispensable – piece of the puzzle that makes a show run. Choosing the right cable for your application is not always an easy job.

We provide you with solutions for finding your cable quickly – such as our clear series system (5 STAR, 4 STAR, 3 STAR) which is applied to all our products – where you are able to see the differences at first sight. Then there's the easy and effective tools (like the Cable Explorer) in our Webshop.

It's up to you to take as much time as you want for finding your product... but with us, it can happen very quickly, no matter whether it's a guitar going into an amplifier, one moving head to the next, or the socket to the power strip. We're able to give you the perfect products and provide YOUR POWER TO CONNECT!
